DATA ON TEXTILE INDUSTRY FOR 1951

25X1

25X1

[ ] report consists of three documents, as follows:

1. A 2-page list and a 1-page list, undated, and compiled by the Magistrat of Greater Berlin, Economic Department, on the 1951 People's Economic Plan for the textile industry for "PB" ("production plants" -- i.e., manufacturing plants) and "HB"\*, respectively. The following information is given for various types of textiles, repairs, and compensation orders for the four quarters of 1951: a) amount planned for gross production, by quantity and value; b) new standard for gross production, by quantity and value; c) amount planned for goods production, by quantity and value.

2. A 1-page list, dated 7 June 1951 and compiled by the Contract Office of Greater Berlin, Department for Light Industry, Textile Division, which gives a comparison of contract values and measuring (standard?) values for the period 1 January -31 May 1951 for various types of textiles, compensation orders, and repairs.

3. A 2-page list, dated 16 December 1950 and compiled in Berlin, which consists of a 1951 production plan for the textile industry for "PB" and for light industry for "HB". Information given consists of the plan position number and type of textile, repairs, or compensation orders; value (in thousands of Deutsche marks) and total quantity to be produced in 1951; and the value and quantity to be produced in each of the four quarters of 1951.

\*The abbreviation "HB" was not identified in the document. It may stand for "handwork firms", i.e., small firms with limited personnel and equipment.
